EMS Medical Billing
Easy as 1 - 2 - 3...

1 Enter your patient reports into our HIPPA compliant, NEMSIS Gold certified Incidents module.

2 Extract the required billable data from your patient reports with our streamlined Export tools.

**3** Securely transfer the export files to your medical billing company via email or direct uploads.

Emergency Reporting's Medical Billing option can help EMS providers expedite their revenue recovery programs. Our fast and easy process guides agency personnel through the electronic transfer of billable data already gathered in patient care reports: An end to paper forms and duplicate data entry means shorter turnaround times between EMS expenses and their recovery.
