NFPA 1500 is the standard on Fire Department Occupational Safety and Health Program. This standard was put in place to establish the minimum requirements for a fire-service related occupational safety and health program. Emergency Reporting's NFPA 1500 Dashboard shows your department's compliance with the NFPA 1500 standards using information that you have collected in the various Emergency Reporting modules. The dashboard measures the following areas:

Gauge	What is being measured?	How is this measured in Emergency Reporting?
Organization	<ul style="list-style-type: none"> Does your department have proper documentation on the NFPA 1500 standards as they relate to your department? 	<ul style="list-style-type: none"> Locked status of pre-defined NFPA 1500 Library Categories and Sub-categories
Facilities	<ul style="list-style-type: none"> Do your facilities meet NFPA 1500 inspection requirements? 	<ul style="list-style-type: none"> Inspection status of occupancies categorized as NFPA 1500 facilities
Staffing	<ul style="list-style-type: none"> Does your department have adequate staffing? 	<ul style="list-style-type: none"> Comparison between the # of personnel entered in the Demographics > Staffing > Personnel By Type > Suppression and the count of actual non-combat personnel that are Active.
Medical/Physical	<ul style="list-style-type: none"> Are your personnel medically fit for duty? 	<ul style="list-style-type: none"> The percentage of people who are Active and their 'Fit for Duty' status.
Wellness/Behavior	<ul style="list-style-type: none"> Does your department have a Wellness/Behavior program? Are your personnel informed about the Wellness/Behavior program? 	<ul style="list-style-type: none"> Percentage of active personnel who have read the Wellness/Behavior Policies. Locked status of the Wellness/Behavior library category and sub-categories. <ul style="list-style-type: none"> Behavioral Health & Wellness Programs Exposure to Atypically Stressful Events
Training	<ul style="list-style-type: none"> Have your personnel been trained on General Requirements and Risk Management? 	<ul style="list-style-type: none"> Percentage of people who have completed NFPA 1500 related job performance requirements.
Equipment	<ul style="list-style-type: none"> Have your equipment been inspected and maintained? 	<ul style="list-style-type: none"> Inspection status of equipment requiring NFPA compliance
Apparatus	<ul style="list-style-type: none"> Have your apparatuses been inspected and maintained? 	<ul style="list-style-type: none"> Inspection status of apparatus requiring NFPA compliance.
PPE	<ul style="list-style-type: none"> Do your personnel have the PPE that they need to perform their job? 	<ul style="list-style-type: none"> Does each person have an "In Service" set of ensemble equipment? Has the equipment in the ensemble had a Routine or Advanced Inspection within the specified inspection frequency?
Emergency Ops	<ul style="list-style-type: none"> Is your Incident Management System in place? Have your personnel been trained? Do you have Emergency Procedures/Policies in place? 	<ul style="list-style-type: none"> Active personnel who have completed NIMS ICS-100 and ICS-700. Locked status of "Emergency Operations" library category and sub-categories.
